DONN[®] DX[®]/DXL[™]

Acoustical Suspension System

Maximum economy, simplicity, and access.

This ceiling suspension system is an exposed-grid system that has a hot-dipped galvanized steel body. It can be used for both general and fire-rated applications. Many of the DX/DXL components are available with High Recycled Content (HRC).

*Sold in FULL CARTONS ONLY

PRODUCT BENEFITS

- Reinforced aluminum core (where indicated)
- Professional grade profiles and dimensions
- Durable, strong and impact-resistant
- Pool code approved (where indicated)
- Aluminum post insert required for posts supporting a gate
- Gate kits: 4' opening for walk gates and 5' opening for drive gates

SOLARGUARD®

SolarGuard is a material composition that provides fade resistance* so that your outdoor living products will look good for years to come.

*Does not apply to white vinyl products

STAYSQUARE®

The StaySquare patented gate design with internal gate pockets, provides structural integrity that decreases sagging and bending over the years.

STAYSTRAIGHT®

StayStraight is a unique material composition within vinyl fence rails that provides structural durability helping to decrease bending or sagging over time*.

*Does not apply to all products

TRIM - TEX PRODUCTS

J Bead

Trim-Tex's first product, the J Bead launched rigid vinyl into the drywall industry 40 years ago. Use J Bead to finish rough drywall ends and under all door and window encasements.

- PJB12 1/2" x 10' PLASTIC J BEAD #1110 50 PCS/CTN \$161.14/CTN
- PJB58 5/8" x 10' PLASTIC J BEAD #1210 50 PCS/CTN \$161.14/CTN

Tear away™ L Bead

Comes with a full 5/16" tear-off leg that is one of the largest in the industry. The tear-off leg acts as a guide for the taping knife as well as a protective masking for mudding and painting. When finished, simply tear off the leg for a clean, sharp look.

- TALB12 1/2" x 10' TEAR AWAY L BEAD #9010 50 PCS/CTN \$178.68/CTN

350 Bull™ Corner Bead

Smaller radius & extra long legs allow 350 Bull to absorb extreme impact. Half the radius of the 3/4" Bullnose. Works great for accenting large and small details without requiring a setback of drywall.

- 35010 10' BULL RADIUS EDGE CORNER BEAD 35 PCS/CTN \$172.80/CTN

350 Bull Arch™

The only exclusive archway bullnose in the world that doesn't require filling notches on the exposed bead area.

- 35020 10' BULL ARCHED CORNER BEAD 25 PCS/CTN \$172.00/CTN

0920 - 350 Bull™ 2 Way

0920 is designed to finish 350 Bull Outside Corners, adjoining at a 90° angle

- 0920M 2 WAY BULL CORNER ADAPTER 10 PCS/CTN \$93.56/CTN

0923 - 350 Bull™ 3 Way

0923 is designed to finish three 350 Bull Outside Corners that adjoin at a 90° outside angle

- 0923M 3 WAY BULL CORNER ADAPTER 10 PCS/CTN \$93.56/CTN

350 Bull Adapter

Joins to a 350 Bull Bead and transitions to a standard square outside corner. Simplifies the installation of the baseboard. Designed with a minimal mud bump which uses less compound and prevents excessive outward splaying of the baseboard.

- 0926 BULL ADAPTER / TRANSITION 50 PCS/CTN \$100.12/CTN

To obtain an insulation resistance (R) of:	Installed insulation should not be less than:	Expected thickness after long-term settling has occurred:	Minimum number of bags per 1,000 sq.ft. of net area:	Contents of this bag should not cover more than:	The weight per sq. ft. of installed insulation should not be less than:
11	4.25	4.25	4.6	215.9	0.15
13	5.00	5.00	5.5	181.3	0.17
19	7.00	7.00	8.0	125.4	0.25
22	8.00	8.00	9.3	108.0	0.29
26	9.50	9.50	11.2	88.9	0.35
30	10.75	10.75	13.0	77.1	0.41
38	13.50	13.50	17.0	59.0	0.53
44	15.25	15.25	19.6	50.9	0.62
49	17.00	17.00	22.4	44.6	0.71
60	20.25	20.25	27.9	35.8	0.88

The manufacturer recommends that the insulation be installed at these minimum thicknesses and maximum coverages to provide the levels of insulation thermal resistance (R-value) shown.
See reverse to determine adjustment in coverage for Climate Pro Insulation installed in Minnesota.

Single Reflective Insulation

The product consists of one 96% reflective layer of film bonded to two internal layers of heavy gauge polyethylene bubbles (Single layer of bubble is 5/16"). Rfoil Single Reflective Insulation is ideal for applications that only require a single reflective (side of the product) or a job that specifies a white interior wall surface. As with our Double Reflective Insulation, ease of handling and installation are key characteristics, contributing to a reduction in labor cost (during installation).

<u>Single Reflective Insulation (DOUBLE BUBBLE)</u>				
			1-24 Rolls	25+ Rolls
RFDB4125	48" x 125'	Double Bubble Foil / White	\$208.66	\$195.82

Bilco stakWEL

Emergency Egress Window Well System

<u>ITEM</u>	<u>DESCRIPTION</u>	<u>PRICE</u>	<u>5+ PRICE</u>
STKWL	21"H X 54"W stakWEL (Standard width)	\$284.16	\$268.62
STKWLC	stakWEL Cover 40PSI & UV Resistant	\$711.68	\$672.76

StakWEL® Window Wells - Modular Design

Modular system is one of the fastest and least expensive ways to add code-compliant emergency egress to any basement area. Simply "stack" the modules (4 module stack shown) to accommodate your foundation height and add natural daylight to your finished basement. StakWEL features a unique "Grip/Step" design to aid emergency egress and provides corrosion resistant performance at "steel-like" window well prices.

- 1. Safe...** Unique "Grip/Step" design features a convenient handle and gusseted step to meet building code requirements for egress in an emergency situation.
- 2. Inviting...** Allows natural daylight and ventilation into lower-level living areas. Soft earth tone color complements the basement interior.
- 3. Durable...** Constructed of maintenance-free materials that will never rust, rot, or need replacing.
- 4. Economical...** Easy to install system features modules that simply slide together to create the required window well height for your foundation.
- 5. Versatile...** Mounding flanges are designed for attachment to a standard window buck or directly to the foundation wall.
- 6. Code-Compliant...** Satisfies IRC 2012 Building code requirements for emergency egress in finished basement areas.

"Affordable Window Wells Don't Have to be an Eyesore"

JUST CAULK AND WALK AWAY!

Caulk-N-Walk® Seamless Column takes column installation to the next level. No more parting lines to sand or fix with body putty.

Caulk-N-Walk® Seamless Columns are available with Plumb Perfect installation system and concealed fasteners which make complet-

HERE'S WHAT YOU GET IN THE BOX:

- White Seamless Column
- White polyurethane Snug-Fit capital with foam ring insert that hugs the column.
- White composite base, same material as the column. Base fits snug on top of the base ring.
- Base ring with predrilled holes
- Base ring target to assist in plumbing the column.
- Installation disc with predrilled holes. Center hole accommodates the plumb bob hanger.
- Plumb bob with hanger and string
- (9) Screws

Our **FIN/Trim™** Head screws have the smallest screw head on the market; with sizes available from 1"1/4 (30 mm) to 5"(125mm). The **FIN/Trim™** Head screw's exceptionally small head, along with the W-Cut™ thread design, prevent most material splitting. Pre-drilling is only necessary if the building material's limitations require a pilot hole to be drilled. (Always consult wood supplier's/ manufacturer's recommendations).

FIN/Trim™ Head Screw

RT Composite™ Trim™ Head Screw

- Interior / Exterior Use
- No Pre-Drilling Unless Material Requires
- Fine Carpentry
- Smallest Head On The Market
 - Window / Door Jambs

REVOLUTION™

Rolled Ridge Vent by COR-A-VENT, Inc.

Environmentally responsible – Made with 100% pre-consumer Polypropylene plastic
Durable & Power-Nailable – Won't crack or compress like other vents
Tested & approved – Protects from rain & snow infiltration without clogging
Superior Airflow – 12" NFVA, has better airflow than VentSure® & Rapid Ridge®
More bang for your buck – 11" x 20' roll comes with 2 coils of 1 ¾" nails

REV11

36 Rolls/ Pallet

ROLL PRICE: \$52.70 EA.

SKID PRICE: \$48.99 EA.
